

ACM Mill Size Baler

This mill size baler offers levels of performance, strength and safety unequalled by any other vertical baling press. The efficiency, ease of operation and low cost of ownership makes the mill size baler the perfect workhorse for on-site recycling and waste management. Producing cardboard bales in excess of 500kgs, these denser heavier bales reduce the cost of storage space, handling and transportation whilst maximising recycling revenue. The mill size baler has a large feed opening 1524mm x 725mm, and includes features such as automatic bale ejection, bale full indicator, PLC controls and safety interlocks to make it fully CE compliant. This baler is suitable for cardboard, plastic and paper etc. The machine requires a solid, level base on which to be sited.

Motor	7.5kW
Platen Force	32t
Cycle Time	59 sec
Control Voltage	120V AC
Electrical	415V 3ø50~
Overall (W x D x H)	1803 x 1346 x 3860mm
Feed Height	1143mm
Loading Aperture	1524 x 725mm
Bale (W x D x H)	1524 x 762 x 1220mm
Bale Weight (OCC)	up to 550kg
Baler Weight	2700kgs
Ties	5

Key features/benefits

- Semi-auto bale eject
- Double redundant interlocks
- Key operated controls
- 'No Lube' full platen guidance
- Structural lifting eyes
- Front bale tie-off
- Bale full indicator
- Material retention claws
- CE compliant

Option

- High speed cycle (regenerative hydraulics)

Complete Waste Management
